CENTRAL INTELLIGENCE AGENCY REPORT 50X1-HUM information report CD NO. COUNTRY Kumania DATE DISTR. 20 Feb 52 SUBJECT The Technometal Factory NO. OF PAGES 1 PLACE NO OF ENCLS E sketch CUSTED BELOW **ACQUIRED** 50X1-HUM DATE OF SUPPLEMENT TO INFO. REPORT NO. THE DOCUMENT OF TAINS INFORMATION AFFECTIVE THE NATIONAL OFFICES OF THE OBJECTIVE THE DESCRIPTION OF THE OBJECTIVE OF THE OBJECTIVE OBJECTI THIS IS UNEVALUATED INFORMATION 50X1-HUM

- 1. The Technometal factory located at Strada Bucurescii Noi, No. 170, Bucharest, manufactures machines and spare parts for the textile industry in Rumania. The factory is housed in a two-story concrete building covering 4,000 meters. There is a one-story wooden building located near the larger edifice. The factory has 200 workers who utilize three foundries.
- 2. Large scale plans for the enlargement of the factory during the latter part of 1951 are being considered. Nevertheless, the enlargement will not take place as scheduled because of the lack of such raw materials in Rumania as cement, iron and lumber (which have military priority); the lack of specialized workers, and the fact that the Soviet Union is scheduled to produce only 80 of the 1,000 machines needed. The great majority of the buildings planned for construction have been officially postponed.
- 3. The enlargement plan foresaw the installation of 300 extra machines which are to come from Czechoslovakia, Eastern Germany and the Soviet Union. The production will be tripled and the number of workers increased to 800. The expenses for the materials alone for the proposed construction will amount to 350,000,000 lei.
